

Tools Required: Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

Bulb Recommended: 12W; Lumens: 1020LM; Color Temperature: 3000K; CRI (color rendering index):80; Driver: Yes; Driver Power Factor: >0.9; Driver Voltage Rating (Volts/Amps): AC: 100-120V, DC: 8.5V; Driver Replaceable: N/A; LED Module Replaceable: No; LED Dimmable: Yes. DC - 9W(Bottom), AC - 3W (Top).

Estimated Assembly Time: 20-30 minutes

Preparation: Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

⚠ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal. Do not subject glass parts to any shock while in operation or shattering may result.

Package Contents

STEP 3 – Apply Silicone Sealer

A. Make sure exterior wall surface and fixture backplate are free of dirt before applying caulk. Using exterior grade caulk, caulk over top of backplate and down other side. Do not caulk bottom of fixture backplate to ensure proper moisture drainage.

Figure 3

STEP 1 – Install Inner Backplate and Fixture Body

- Pass the supply wires through Inner Backplate (A). Attach Inner Backplate (A) to Outlet Box with the head of Green Ground Screw facing you. Secure it with Outlet Box Screws (not included). Tighten until snug.
- Race all supply wires through the Inner Backplate (A) as shown. Refer to Step 2 for wiring connections.
- Attach Fixture Body (C) over Inner Backplate (A) and secure with Lock Screws (B). Tighten until snug with screwdrivers.

FINISH: WESTERN BRONZE

STEP 2 - Wire Connections

- A. Use standard wire connectors (not included) to make all wire connections. (Connectors are not included with fixture.) Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires between Inner Backplate (A) and Fixture Body (C).
