

Installation Information

Item #P0787

**42" Square Enclosure, 1" Diameter Tubing
Includes 3 - 36" Ceiling Supports**

Parts Included

Tub Surround:

4- P0069 L Shaped Rod

3- P0095-36 Support Brace (includes 36" rod, P0070 Ring Support and GB0282 Escutcheon)

NOTE: ASSEMBLE ON FLOOR PRIOR TO INSTALLING FOR ACCURATE MEASUREMENTS

1. Lay out pieces on the floor to determine if any of the rods will need to be cut, according to the size of the surround you desire.
2. Slide each of the P0070 ring supports onto the rods where you plan to install the ceiling braces. **Note: *These braces will restrict the flow of your shower curtain.***
3. Make all cuts and size adjustments to the tub surround parts prior to installing on the wall.
4. Insert each of the P0069 end rods into the flared end of the other to create the square.
5. Determine where to mount the GB0282 ceiling escutcheon for the 36' ceiling brace and mount accordingly. (This brace length may be cut to length) **Note: *These braces will restrict the flow of your shower curtain depending on where it is installed.***
