<i>Carnegie Style</i> <i>part number</i>	<i>duct</i> <i>height</i>	<i>size</i> <i>length</i>	<i>total</i> <i>height</i>	<i>size</i> <i>length</i>	<i>depth</i> <i>thickness</i>	<i>weight</i> <i>actual</i>	<i>weight</i> <i>shipping</i>	<i>free air flow</i> <i>sq inches</i>	<i>%</i>
CG-209 18x18	18	18	20	20	0.4	3.2	10	223.4	74

In 1901 Andrew Carnegie was the world's richest man, with \$500 million mostly in U.S. Steel. Then he gave most of it away, by building over 3,000 libraries, most in the USA. He included this grille design in every "Carnegie Library" he built. As a result these grilles were ever after called "Carnegie's Grilles". Today these Carnegie style grilles are designed for wall and ceiling use only, and are **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are quiet, since resin doesn't vibrate, unlike louvered grilles. In addition resin won't rot, rust, corrode or grow mold. They are offered in 5 different finishes, Rubbed Bronze, Antique Brass, Pewter, Nickel and Black.

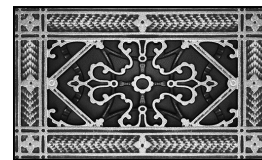

Rubbed Bronze

Antique Brass

Pewter

<b>Urethane Resin</b>	<b>7,660 psi</b>	<b>10,230 psi</b>	<b>11,400</b>	<b>180 degrees F</b>	<b>80</b>

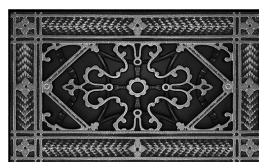

In 1901 Andrew Carnegie was the world's richest man, with \$500 million mostly in U.S. Steel. Then he gave most of it away, by building over 3,000 libraries, most in the USA. He included this grille design in every "Carnegie Library" he built. As a result these grilles were ever after called "Carnegie's Grilles". Today these Carnegie style grilles are designed for wall and ceiling use only, and are **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are quiet, since resin doesn't vibrate, unlike louvered grilles. In addition resin won't rot, rust, corrode or grow mold. They are offered in 5 different finishes, Rubbed Bronze, Antique Brass, Pewter, Nickel and Black.

## Carnegie Style Grille: CG-209 06x24

<i>part number</i>	<b>CG-209 06x24</b>	<i>to cover duct size</i>	<b>06" x 24"</b>	<i>frame width</i>	<b>1-5/16"</b>
<i>style</i>	<b>Carnegie</b>	<i>outside height</i>	<b>8"</b>	<i>weight / shipping weight</i>	<b>1.6lb / 6lbs</b>
<i>material</i>	<b>Urethane Resin</b>	<i>outside width</i>	<b>26"</b>	<i>thickness</i>	<b>3/8"</b>
<i>function</i>	<b>HVAC Grille</b>	<i>inside height</i>	<b>5-3/8"</b>	<i>predrilled screw holes / screws</i>	<b>6 / 6</b>
<i>placement</i>	<b>Wall / Ceiling</b>	<i>inside width</i>	<b>23-3/8"</b>	<i>free air flow</i>	<b>93 sq inch</b>

<i>Material Technical Overview</i>	<i>Tensile Strength</i>	<i>Flexural Strength</i>	<i>Compressive Strength</i>	<i>Heat Deflection</i>	<i>Shore D Hardness</i>
<b>Urethane Resin</b>	<b>7,660 psi</b>	<b>10,230 psi</b>	<b>11,400</b>	<b>180 degrees F</b>	<b>80</b>

In 1901 Andrew Carnegie was the world's richest man, with \$500 million mostly in U.S. Steel. Then he gave most of it away, by building over 3,000 libraries, most in the USA. He included this grille design in every "Carnegie Library" he built. As a result these grilles were ever after called "Carnegie's Grilles". Today these Carnegie style grilles are designed for wall and ceiling use only, and are **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are quiet, since resin doesn't vibrate, unlike louvered grilles. In addition resin won't rot, rust, corrode or grow mold. They are offered in 5 different finishes, Rubbed Bronze, Antique Brass, Pewter, Nickel and Black.

## Carnegie Style Grille: CG-209 10x10

<i>part number</i>	<b>CG-209 10x10</b>	<i>to cover duct size</i>	<b>10" x 10"</b>	<i>frame width</i>	<b>1-5/16"</b>
<i>style</i>	<b>Carnegie</b>	<i>outside height</i>	<b>12"</b>	<i>weight / shipping weight</i>	<b>1.1lb / 4lbs</b>
<i>material</i>	<b>Urethane Resin</b>	<i>outside width</i>	<b>12"</b>	<i>thickness</i>	<b>3/8"</b>
<i>function</i>	<b>HVAC Grille</b>	<i>inside height</i>	<b>9-3/8"</b>	<i>predrilled screw holes / screws</i>	<b>4 / 4</b>
<i>placement</i>	<b>Wall / Ceiling</b>	<i>inside width</i>	<b>9-3/8"</b>	<i>free air flow</i>	<b>65 sq inch</b>

<i>Material Technical Overview</i>	<i>Tensile Strength</i>	<i>Flexural Strength</i>	<i>Compressive Strength</i>	<i>Heat Deflection</i>	<i>Shore D Hardness</i>
<b>Urethane Resin</b>	<b>7,660 psi</b>	<b>10,230 psi</b>	<b>11,400</b>	<b>180 degrees F</b>	<b>80</b>

In 1901 Andrew Carnegie was the world's richest man, with \$500 million mostly in U.S. Steel. Then he gave most of it away, by building over 3,000 libraries, most in the USA. He included this grille design in every "Carnegie Library" he built. As a result these grilles were ever after called "Carnegie's Grilles". Today these Carnegie style grilles are designed for wall and ceiling use only, and are **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are quiet, since resin doesn't vibrate, unlike louvered grilles. In addition resin won't rot, rust, corrode or grow mold. They are offered in 5 different finishes, Rubbed Bronze, Antique Brass, Pewter, Nickel and Black.

<i>placement</i>	<b>Wall / Ceiling</b>	<i>inside width</i>	<b>29-3/8"</b>	<i>free air flow</i>	<b>247.3sq inch</b>

<i>Material Technical Overview</i>	<i>Tensile Strength</i>	<i>Flexural Strength</i>	<i>Compressive Strength</i>	<i>Heat Deflection</i>	<i>Shore D Hardness</i>
<b>Urethane Resin</b>	<b>7,660 psi</b>	<b>10,230 psi</b>	<b>11,400</b>	<b>180 degrees F</b>	<b>80</b>

In 1901 Andrew Carnegie was the world's richest man, with \$500 million mostly in U.S. Steel. Then he gave most of it away, by building over 3,000 libraries, most in the USA. He included this grille design in every "Carnegie Library" he built. As a result these grilles were ever after called "Carnegie's Grilles". Today these Carnegie style grilles are designed for wall and ceiling use only, and are **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are quiet, since resin doesn't vibrate, unlike louvered grilles. In addition resin won't rot, rust, corrode or grow mold. They are offered in 5 different finishes, Rubbed Bronze, Antique Brass, Pewter, Nickel and Black.

<i>Material Technical Overview</i>	<i>Tensile Strength</i>	<i>Flexural Strength</i>	<i>Compressive Strength</i>	<i>Heat Deflection</i>	<i>Shore D Hardness</i>
<b>Urethane Resin</b>	<b>7,660 psi</b>	<b>10,230 psi</b>	<b>11,400</b>	<b>180 degrees F</b>	<b>80</b>

In 1901 Andrew Carnegie was the world's richest man, with \$500 million mostly in U.S. Steel. Then he gave most of it away, by building over 3,000 libraries, most in the USA. He included this grille design in every "Carnegie Library" he built. As a result these grilles were ever after called "Carnegie's Grilles". Today these Carnegie style grilles are designed for wall and ceiling use only, and are **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are quiet, since resin doesn't vibrate, unlike louvered grilles. In addition resin won't rot, rust, corrode or grow mold. They are offered in 5 different finishes, Rubbed Bronze, Antique Brass, Pewter, Nickel and Black.
